Regina Election.

The recent in the Regina election for the Saskatchewan Legislature has resulted in a majority for the Conservative candidate. The reason for which this was accomplished is "due" new to the province in the election of the party. H. W. Laird, Provincial Liberal candidate for Regina City, charged the machine in that city with having "swindled" the people. The result just mentioned is due to the fact that the Conservatives have been successful in the election of the party. The result was a surprise to the people, as the Conservatives were not expected to win.

Mr. Laird said, in an interview, that the Regina City Hall has been studied by his friends. His statement was to the effect that the Conservatives were not expected to win. The result was a surprise to the people, as the Conservatives were not expected to win. The result was a surprise to the people, as the Conservatives were not expected to win.

It is a repetition of what took place a few years ago in East-Elk. The result was a surprise to the people, as the Conservatives were not expected to win. The result was a surprise to the people, as the Conservatives were not expected to win.

New it will be for the Stat. Government. The result was a surprise to the people, as the Conservatives were not expected to win. The result was a surprise to the people, as the Conservatives were not expected to win.

## Thrust A Pitchfork Into The Intruder.

REV. DR. JAMES GARDNER, OF THIS CITY, HARBINGER OF A SUPPORTED HUNGARIAN PARTY, ROUGHLY THIS MORNING, GAVE HIM A TASTE OF COLD STEEL AT WARREN, OLD IRVINE.

What was supposed to be a daring and successful attempt of a burglar to enter on a house, near Albert Garden, at about 2 o'clock this morning.

The party did not enter the house, but was driven away by the police, who were on duty at the time.

A representative of the Intelligence, who was on duty at the time, saw the burglar enter the house, and saw him being driven away by the police.

The burglar was seen to enter the house, and was seen to be driven away by the police.

The burglar was seen to enter the house, and was seen to be driven away by the police.

**Mystery Cleared Up.**

The matter was this morning disclosed by Charles Hays, and it did not take that state office to find out the rest. It seems that the man who was supposed to be a burglar, was in fact a man who was in the house, and was seen to be driven away by the police.

STOMACH CURE.

**An Easy Way from Standpoint of Convenience.**  
The human race has long known that the stomach is the most important organ in the body, and that its health is the key to the health of the whole system. It is the source of all the food and energy that the body needs, and if it is not working properly, the whole system suffers. The result is a host of ailments, from indigestion and flatulence to constipation and general weakness. The cure for all these ailments is a simple one: a good stomach cure. There are many such cures on the market, but few are as effective and as easy to use as the one we are recommending. It is a natural, vegetable-based preparation that works gently on the stomach, helping it to digest its food properly and to move the bowels regularly. It is suitable for all ages, from infants to the elderly, and it can be used as a preventive as well as a cure. The result is a healthy, happy stomach, and a healthy, happy body.

**A SIMPLE MAKER.**

Find a child with dimples and chubby arms and legs and you find a healthy child. You find one with drawn face and do not let the child eat. You find one that needs Scott's Emulsion. Your doctor will tell you that the child is fat and healthy—just food is not enough.

Nothing helps these thin, pale children like Scott's Emulsion. It contains the very element of life, cod liver oil. It supplies them with a perfect nourishment. Scott's Emulsion brings dimples and rounded limbs.

### RIGHT NOURISHMENT.

We think of nourishment as food—meats, soups, vegetables, etc., but that's only half. It's not the food alone that counts but the good that we get from food that furnishes nourishment. A pound of steak is of less value to a weak stomach than a crust of bread is to a strong digestion. But weak stomachs can be made strong. Begin by eating less; have regular hours for meals; avoid fancy foods; and about a half hour after eating take a tablespoonful of Scott's Emulsion. It's a fact of medical history that people have lived on not much else but Scott's Emulsion for a long time—not only lived but gained flesh and recovered their strength and health. From the pure Norwegian cod liver oil to the last drop of glycerine, Scott's Emulsion contains just the strengthening and health-building elements needed for low vitality, weak digestion and poorly nourished bodies.

One of Party of Three G. T. P. Surveyors Reaches Civilization.

Two Companions From Expedition, Who Started With Him Dec. 13, Ill and Maimed, Are Lying in the Woods of New Ontario Without Food—Little Hope of Rescue—A Tramp to Civilization.

Fort Arthur, Ont., Jan. 22.—(Special from the west.) Ill and without food, Charles (name) and his companion, the late in a tragic little story which are being hurried to law from the hospital at the residence of the respondent. A hundred or more miles to the northwest in a lonely trapdoor shack, crowded by many days' travel from friends and medical aid, I have a late letter with what must prove a fatal attack of typhoid fever.

Each man until three weeks ago were members of the Great Trunk Pacific Railroad survey, and owing to a quarrel with their superiors in charge decided to walk down to civilization, so that they on December 13, in company with a third man, they started on the first day everything went as it should, but on the afternoon of the second day the ice gave way as they were crossing a creek, which resulted in a fatal attack of typhoid fever.

After the hours of agony they reached a transport's shack, but the entire habitation of that line but received them with open arms. The following morning they were the first to arrive, but on the second day following and Wilson were able to continue their journey, leaving behind the traveler's care taking a decision. For a few miles they walked and then they found the road, and the two men went on to it, and in to keep the two friends.

## OUR PRICES

We claim and guarantee our prices to be as low or lower, value considered than can be found anywhere in CANADA.

Fifty years of merchandising experience places us in a position to know what GOOD VALUES are and being in constant touch with the largest markets we enjoy inside prices.

Establishments in large cities as Toronto and Montreal have, owing to greater land values, higher rent rates, expense bills proportionately many times larger than ours.

These expense bills must be paid and can only be met by being added to the retail prices.

Thus while we enjoy ideal buying advantages our lower rate of expense enables us to mark our goods at a lower margin than is possible in the larger centres.

If you contemplate a purchase, investigate our values before sending out of the city—it will save you money.

Austria-Hungary and Turkey Try to Break Up Coalition of the Balkan States—Serbian Cattle Barred Out of Austria-Hungary. Its 90 Per Cent Market—Turkey Takes Action—King Peter Must Go Soon.

Vienna, Jan. 24.—A dispatch received at the office of Austria-Hungary to terminate the speculation looking to the conclusion of the current negotiations in the Balkan states, in its last note on the subject the Austrian government declined to be guided by Austria-Hungary's suggestion in the matter. The negotiations between Austria-Hungary and Serbia for the conclusion of a non-military treaty were officially broken off on the 22nd inst. The Austrian government is understood to have the intention of sending a message to Serbia's parliament on the 23rd inst. to inform the latter of a certain course of action.

The closing of the Austria-Hungary frontier against the importation of Serbian cattle has been interpreted as an aggressive movement, designed to isolate Serbia from the rest of the Balkan states. It is reported that Austria-Hungary is contemplating the seizure of the Serbian cattle and horses in the Balkan states, and that the Serbian government is preparing to take action against the Austrian government in the matter.

London, Jan. 24.—Telegraphing from Vienna, Jan. 24.—The Serbian government has issued a decree forbidding the export of Serbian cattle and horses to Austria-Hungary. The decree is understood to be a direct challenge to the Austrian government's policy of isolating Serbia from the rest of the Balkan states. The Serbian government is reported to be preparing to take action against the Austrian government in the matter.

## Time's Up and the Coats Must Go

If you want a coat step lively, please. If you knew we were giving away \$5 bills you would come in for your share, wouldn't you? Well, it's just what we are doing, and sometimes we give away even more.

We are closing out our Overcoats. We won't carry them over. It certainly isn't good business to do so. Our Overcoats are cut to the cost and often less.

Now Is the Time to Buy an Overcoat.

## The Ritchie Co., Limited. Extensive Alterations

Constantly increasing business necessitates further alterations and extensions to our already large store. We are just closing the largest business year in our history which speaks louder than anything else could do to tell us that our efforts to serve the people of this district are being appreciated. Our steady aim has been to supply the newest styles of goods from the most reliable makers in the world at the Lowest Possible Price. This can only be accomplished by sending our buyers direct to the sources of supplies both in this country and in Europe (avoiding the profits paid to middle men by retail dealers) the benefits of which are passed on to our customers. Buying our goods **For Cash** and selling them for cash enables us to do business on a smaller margin of profit than if we were obliged to pay interest on purchase and make losses through selling on credit. Workmen are now busy reworking walls, stairways, partitions, etc., which will increase our room, light and comfort of our customers when trading. We intend to do bigger and better things during 1906 than in any previous year.

NOT A "PATENT" MEDICINE.

Scotch Emulsion is not a "patent" medicine. It has no secret ingredients. Your doctor can't, tell you as much about it as we can tell you. We have merely perfected the method of blending the Norwegian cod liver oil, hypophosphites of lime and soda and glycerine. As one grocer will find it more successful in making Scotch Emulsion a little better than any other cod liver oil preparation.

# Overcoats Ordered Out of the House

Here's the first "tool" of our Overcoat Special

## Time's Up and the Coats Must Go

If you want a coat step lively, please. If you knew we were giving away \$5 bills you would come in for your share, wouldn't you? Well, it's just what we are doing, and sometimes we give away even more.

We are closing out our Overcoats. We won't carry them over. It certainly isn't good business to do so. Our Overcoats are cut to the cost and then less.
